OF GROWING

PRO-MIX® IS CELEBRATING ITS 50th ANNIVERSARY!

For PRO-MIX®, 2018 means 50 years of growing. Established in 1968, the PRO-MIX® brand provides commercial growers and consumers with a wide range of value-added products in the field of horticulture. Since then, it has influenced its markets and industry with numerous innovations, all materialized through products, processes and work methods that are both unique and recognized. This important anniversary is an opportunity to thank all the customers, partners and team members who have shared and contributed to the success of Premier Tech's leading brand. It is also an occasion to look back on the beginnings and the major steps that have made PRO-MIX® what it is today.

AN INNOVATIVE AND INSPIRING JOURNEY

Over the years, clear leadership has been demonstrated, whether by being the first peat moss producer to ever bag growing media for market distribution, or through our product offer that is constantly raising quality standards in the field of growing media enriched with active ingredients.

THE REFERENCE IN THE INDUSTRY OF PROFESSIONAL HORTICULTURE

More than 30 years after the first growing medium with mycorrhizae, the PRO-MIX® brand is a reference in the industry, and this, thanks to leading-edge solutions and a selection of active ingredients giving unparalleled results.

PRO-MIX

PRO-MIX® Potting Mix

- With **MYCOACTIVE®** technology
- Suitable for potting and re-potting plants
- Formulated with natural coconut fibre that increases water holding capacity and reduces watering frequency
- Contains a controlled release fertilizer feeding your plants for up to 9 months

Ingredients: Canadian sphagnum peat moss, peat humus, coconut fibre, perlite, lime, controlled release fertilizer, mycorrhizae

CODE	UPC	SIZE	PALLET
4 98013 1	0 25849 01231 1	18 L	63 bags
4 98014 1	0 25849 01232 8	28.3 L	90 bags
4 98015 1	0 25849 01233 5	56.6 L	48 bags
4 98160 1	0 25849 01207 6	2 cu. ft. comp.	2 x 25 bags

PRO-MIX® Organic Vegetable And Herb Mix

- With **MYCOACTIVE®** technology
- For containers, vegetables, fruits and herbs
- Formulated only with natural ingredients
- Contains an organic fertilizer that gradually releases nutrients to plants
- For organic growing

Ingredients: Canadian sphagnum peat moss, peat humus, compost, perlite, lime, gypsum, organic fertilizer, mycorrhizae

CODE	UPC	SIZE	PALLET
4 98140 1	0 25849 01237 3	28.3 L	90 bags
4 98170 1	0 25849 01205 2	2 cu. ft. comp.	2 x 25 bags

PRO-MIX® Garden Mix

- With **MYCOACTIVE®** technology
- Suitable for outdoor plants and garden bed soils
- Ideal for perennials and flowering shrubs
- Formulated with a high percentage of peat humus (the organic matter in the peat humus acts as a revolving nutrient fund within the soil and also as an agent to improve soil structure and minimize erosion)
- Contains a controlled release fertilizer, feeding your plants for up to 9 months

Ingredients: Canadian sphagnum peat moss, compost, peat humus and/or composted forest products, lime, controlled release fertilizer, mycorrhizae

CODE	UPC	SIZE	PALLET
4 98130 1	0 25849 01234 2	28.3 L	90 bags

PRO-MIX® All Purpose Mix

- With **MYCOACTIVE®** technology
- Suitable for all indoor and outdoor planting
- Formulated for a wide range of plant species
- Contains a controlled release fertilizer, feeding your plants for up to 9 months
- Great consumer value: 2 cu. ft. compressed bale expands to 112 L which is the same as getting 28 L for free!

Ingredients: Canadian sphagnum peat moss, perlite, lime, controlled release fertilizer, mycorrhizae

CODE	UPC	SIZE	PALLET
4 98151 1	0 25849 01236 6	2 cu. ft. comp.	2 x 25 bags

PRO-MIX® Organic Lawn soil

- With **MYCOACTIVE®** technology
- Enhancer that strengthens and expands the root system to optimize water and nutrient uptake
- Contains compost, a rich organic fertilizer charge
- Feeds your lawn for up to 3 months
- Up to 50 % thicker lawn results compared to other soil brands

Ingredients: Canadian sphagnum peat moss, peat humus, compost, limestone, organic fertilizer, mycorrhizae

CODE	UPC	SIZE	PALLET
4 98180 1	0 25849 98180 8	28.3 L	90 bags

PRO-MIX® Organic Moisture Mix

- With **MYCOACTIVE®** technology
- Lightweight soil mix which offers optimal aeration and water retention
- 30 % more water retention therefore less time spent watering
- Contains coir for protection against over and under watering
- Can be used for fruits and vegetables, for pots and containers

Ingredients: Canadian sphagnum peat moss, peat humus, coir (coconut fibre), perlite, limestone, organic fertilizer, mycorrhizae

CODE	UPC	SIZE	PALLET
4 98120 1	0 25849 98120 4	28.3 L	90 bags

OUTDOOR GROWING MEDIA

PRO-MIX

PRO-MIX® HP Mycorrhizae™

- High porosity, professional grade, peat based growing medium
- Ensures optimum growth when high air capacity and extra drainage are required
- Ideal for water-sensitive crops, root cuttings and/or low-light growing conditions
- Contains mycorrhizae, which enhances plant growth and increases yields

Ingredients: Canadian sphagnum peat moss (65-75 %), perlite, dolomitic and calcitic limestone (pH adjuster), wetting agent, mycorrhizae

CODE	UPC	SIZE	PALLET
4 92015 1	0 25849 20151 7	42.5 L	80 bags

C-I-L® BIOMAX™ Sea Compost

Rich source of organic nutrients which naturally support healthy plants. Contains:

- Dehydrated Shrimp, Composted Cattle & Turkey Manure to add nutrients essential to plant and root growth and long-lasting soil health
- Rich in organic matter to improve biological activity of soils
- Calcium to contribute to healthy root development
- Suitable for organic growing

New

CODE	UPC	SIZE	PALLET
2 80503 1	0 58262 80503 1	15 kg	60 bags

C-I-L® BIOMAX™ Composted Cattle Manure

- Revitalize and condition soil to promote overall healthy plants
- Increase nutrient levels naturally for plants to access
- Rich in organic matter improving biological activity of soils
- Naturally composted, making it odorless

New

CODE	UPC	SIZE	PALLET
2 80111 1	0 58262 80111 8	15 kg	75 bags

C-I-L® BIOMAX™ Mushroom Compost

Natural, weed-free, non-burning and improves:

- Soil Condition & texture
- Soil aeration to increase the plant root's ability to absorb nutrients and oxygen
- Water retention to decrease risk of plant dehydration
- Ideal around shrubs and trees, flower beds and all types of lawns and vegetable gardens

New

CODE	UPC	SIZE	PALLET
2 80702 1	0 58262 80702 8	25 L	90 bags

C-I-L® BIOMAX™ Composted Manure

- Helps to restore soil condition and fertility
- Natural Plant Food to encourage plant growth
- Naturally composted, making it odorless
- For feeding, mulching and top dressing

New

PRODUCT SAFETY AND FIRST AID

FOR PRODUCT RELATED INFORMATION AND IN CASE OF EMERGENCY CALL 1-800-268-2806

EMERGENCY SUPPLIES

Keep the following minimum supplies readily available

Rubber or Neoprene Gloves	(2 pairs)
Rubber or Neoprene Overshoes	(1 pair)
Absorbent Material i.e., cat litter, etc	(1 large bag)
Detergent strong household type, e.g. Tide, All, etc.	(10 lb or 2 qt.)
Disposable Pail with lid	(5 gal.)
Disposable Plastic Bags heavy-duty garden type	(2)
Broom household type with natural bristles	(1)
Scoop Shovel	(1)
Fire Extinguisher rated for A, B, & C type fires	(10 lb)

PESTICIDE/FERTILIZER SAFETY RULES

**PTHG PRODUCTS ARE MANUFACTURED TO EXACTING SCIENTIFIC STANDARDS.
ALWAYS APPLY AS DIRECTED ON THE LABEL FOR SAFE HANDLING & EFFECTIVENESS.**

- Purchase only DOMESTIC class products.
- READ THE COMPLETE LABEL BEFORE USE.
Pay close attention to package warning symbols – e.g., Flammable, Explosive, Poison, etc.
- Follow label directions exactly. Measure, do not guess.
- Apply only when required and at recommended application rates.
- Apply only to those plants/crops listed on the label.
- Observe the “no-spray” interval before harvest for fruits and vegetables.
- Store pesticides in a safe place, out of reach of children and pets and preferably locked.
Never in proximity to food or beverages.
- Do not spray pesticides on windy days. Wear chemical resistant gloves and goggles while mixing and applying pesticides.
- Use separate sprayers for herbicides and insecticides/fungicides. Do not leave sprayers unattended while spraying.
- Keep children and pets away while applying pesticides and do not let them return to the area until it has thoroughly dried.
- NEVER transfer pesticides out of their labelled container.
- Use garden chemical measuring devices. Do not use kitchen utensils.
- Wash equipment after use.
- Never reuse empty pesticide containers. Check label for appropriate disposal instructions.
Some empty containers may be recyclable.
- To dispose of unwanted pesticide product, contact your regional government Household Hazardous Waste Department.
- Wash hands and face with soap and water after applying pesticides and before eating or smoking.
- Wash fruits and vegetables before eating.

IN CASE OF ACCIDENTAL CONTACT

EYES

- Flush with water for 15 minutes.
- Get medical attention immediately.
- Refer to product label for further instructions.

CLOTHES

- Remove contaminated clothing and wash skin thoroughly with soap and water.
- Refer to product label for further instructions
- If in doubt about nature of material, get medical attention immediately.
- Wash clothing separately in strong detergent before reusing.

HANDS

- Wash thoroughly with soap and water.
- Refer to product label for further instructions.
- If in doubt about nature of material get medical attention immediately.

EMERGENCY PROCEDURE

- 1 Isolate area. Keep people away. Barricade aisles.
- 2 Ventilate area. Do not breathe vapors. Open doors and window.
Set up fan. Close return grills on air conditioners.

- 3 Keep fire sources away.

STOP

IN CASE OF SPILL, CONTACT YOUR LOCAL, PROVINCIAL
OR FEDERAL DEPARTMENT OF ENVIRONMENT

- 4 Put on rubber or neoprene gloves and overshoes.
- 5 Ready fire fighting equipment.
- 6 If a liquid – absorb until dry. Contain liquid around edges.
Sweep absorbent from edges toward the middle. See
“Emergency Supplies” for recommended materials.
- 7 Carefully place absorbent or spilled dry product
in disposable containers.

Scrub spilled area with concentrated detergent using broom.
Absorb and pick up per steps 6 and 7. Discard soaked
materials and merchandise. Scrub lightly splashed items. Scrub
out corners and crevices.
- 8 Dispose of sweepings, broken product containers, broom, other
contaminated waste in accordance with recommendations of
local health authorities.
- 9 Wash gloves, overshoes and shovel with strong detergent
solution. Remove clothing and wash separately in detergent.

Call a doctor or Poison Control Centre immediately
if poisoning occurs. Retain packaging for chemical
reference. Carefully follow label directions for
first aid.

NOTE: Take container, label or product name
and registration number with you when seeking
medical attention.

Safety & Technical Support: PTHG recommends
your staff and customers familiarize themselves
completely with our products by READING THE
PRODUCT LABELS before use. Should questions
arise, contact the Regional Office closest to you.

Note: The pesticide classification coding used in that table is specific to PTHG. Other companies may use a different coding system.

		CLASS DESCRIPTION AND SHELF PLACEMENT ¹	LICENSING AND OTHER RETAILER REQUIREMENTS
BC	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	2	Self-select. “Excluded products” (such as acetic acid, boron, corn gluten, aerosols, diatomaceous earth, soaps, sulphur, ...).	No license required.
	5	Restricted access. ² Mostly biopesticides and other “low-risk” products.	Requires Vendor License for business plus certified employee.
	D	Restricted access. ² All domestic products not in schedule 2 or 5.	Requires Vendor License for business plus certified employee. Consumer needs a certificate to apply (online training) , except for glyphosate when used to control poisonous, noxious and invasive plants and weeds growing through cracks in hard surfaces (asphalt or concrete).
AB	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	3	Self-select. Domestic pesticides for use by homeowners, includes all herbicides. Cannot be displayed: i) in the same aisle as food or personal use items, ii) closer than 3 m from food or personal use items, iii) where floor drains cannot be protected from pesticide release, iv) that is not protected from rain, wind and other weather hazards.	Retailer requires a Retail Vendor Registration. Each retail location must have a certified dispenser (Lawn and Garden certificate).
	4	Self-select. Domestic pesticides that do not present a significant risk to humans and environment (e.g.: animal repellents, rodenticides, insecticide aerosols, insect bait stations, insect repellents, ...)	Does not require vendor registration and certified dispenser.
SK	–	Self-select. No requirements for domestic products.	No license required.
MB	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	SS	Self-select. All registered pesticides not CP, including herbicides of the allowable list.	No license required.
	CP	Restricted access. ² Herbicides not on the allowable list. Can be sold only: • for ornamental, fruit & vegetable garden uses, • to control poisonous or invasive plant species and noxious weeds, • to maintain specialty turf (lawn bowling, lawn tennis, cricket) and professional sport fields.	No license required. Retailer must: • Employ at least one trained employee. • Provide copy of Prescribed Pesticide Handout to customer. • Keep record of prescribed sales for 5 years.
	CP*	Restricted access. ² Pesticides (animal repellents) containing the active ingredient capsaicin.	Pesticide Dealer License required (same license that is required to sell commercial pesticides). Retailer must: • Employ at least one employee that will be responsible for the license (need to sign the Declaration Form on behalf of the business). • Ensure that individuals purchasing capsaicin-containing products complete & sign the Declaration of Purchaser (Form 7). • Keep record of prescribed sales.
ON	X	No sales allowed. Herbicides not on the allowable list that are not eligible to any excepted use outlined in the CP class.	N/A (no sales allowed).
	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	5	Self-select. Mostly less hazardous pesticides > 1 L.	Retailer requires a pesticide license (Limited or General)
	6	Self-select. Mostly least hazardous pesticides ≤ 1 L.	No license required.
	7	Restricted access. ² Domestic pesticides with cosmetic + non-cosmetic uses on label, and contains an active not allowed on lawns.	Retailer requires a pesticide license (Limited or General). Must provide consumer with Class 7 handout at time of purchase.
X	X	No sales allowed. Banned products (for cosmetic use), such as 2,4-D, carbaryl, dicamba, imidacloprid, malathion, mecoprop, and more.	N/A (no sales allowed).

GUIDE TO PROVINCIAL CLASSIFICATIONS

QC	–	Self-select. Products exempted from regulations, such as Weed & Feed corn gluten meal, nematodes, sonic repellents, disinfectants, etc.	No license required.
	4	Restricted access. ² Mostly products ≥1 L or concentrates and/or with active ingredient not considered as “low-risk”.	Retailer requires B2 pesticide permit. Need at least 1 certified employee (B2 certificate).
	5	Self-select. Biopesticides (all sizes / concentrations) and other low-risk products ready to use ≤1L (including synthetic analogs of pyrethrins).	No license required.
	X	No sales allowed. Fertilizer-Pesticides combination products (e.g. MossOut), Multipacks ³ (e.g. dormant kits) and lawn products with banned actives, such as carbaryl, malathion, 2,4-D, mecoprop, etc.	N/A (no sales allowed).
NB	–	Self-select. Pesticides not affected by ban. No specific display restriction.	No license required.
	X	No sales allowed. Banned lawn-care products, have at least one of these characteristics: Hose-end, concentrate, granular spreadable, contains 2,4-D.	N/A (no sales allowed).
PE	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	SS	Self-select. Products with actives on the “Self-select” list or RTU ≤1 L. Display at least 1 m from human food, animal feed, personal items, household furnishings, etc.	No license required.
	CP	Restricted access. ² Products >1 L or concentrates with active not on the “self-select” list.	Requires Domestic Pesticide Vendor Business License for company (retailer) and at least one certified employee (Domestic Pesticide Vendor Certificate) for each outlet.
	X	No sales allowed. Banned lawn-care products with at least one of these characteristics: Hose-end, concentrate, granular spreadable, contains 2,4-D.	N/A (no sales allowed).
NS	–	Self-select. Non-essential pesticides regulations do not apply to these products, because not for lawns or ornamental (outdoor trees, shrubs, flowers, ornamentals) uses. Includes rodenticides, insecticide aerosols, and more.	No license required.
	SS	Self-select. Lawn & ornamental products with active ingredient listed on the Nova Scotia “List of Allowable Pesticides”.	No license required.
	CP	Restricted access. ² Products with lawn and/or ornamentals uses on the label and active ingredient not on the allowable list. Sale of CP product allowed for “Excepted uses” (such as control of health concern pests, poisonous or invasive plants, structure damaging pests), and for uses not affected by regulations (ie. not for use on lawns & ornamentals, such as indoor use, cracks and crevices, etc.).	Retailer must have certified employees (Class I(B) Domestic Vendor Certificate) to sell Controlled Purchase products. Employee must provide consumer with “Excepted uses” handout at time of purchase.
	X	No sales allowed. Banned (doesn’t have excepted uses on label).	N/A (no sales allowed).
NL	–	Self-select. Horticultural products not subject to the pesticide regulations.	No license required.
	D	Self-select. All domestic pesticides not subject to the ban. Store/display at least 1 m from food, beverages, personal use items, seeds, fertilizers, soils and items for animal use. Rodenticides at least 1 m above floor. Store/display all pesticides in a manner: <ul style="list-style-type: none"> • that contains any leakage, • that pesticides are protected from wind, rain and other weather hazards, • that display units are constructed of a non-absorbent or disposable material. 	Retailer needs Business Pesticide Vendor Licence. Vendor shall provide annual sales by Feb. 28 th .
	X	No sales allowed. Nematodes and lawn products that contain either 2,4-D, carbaryl, mecoprop, dicamba or MCPA.	N/A (no sales allowed).

¹**Display recommendations for all pesticides:** away from food, beverages, personal use items and pet food (at least 1 m), and preferably in a manner that presents minimal hazard to children (1 m above floor).

²**Restricted access:** Must be displayed in a way that prevents direct access by consumers to these products.

³**Exceptions to the Québec ban of multipacks.**

To be allowed, a pesticide multipack (class 4 or 5) must meet the following criteria:

1) The containers must all have the same registration number;

2) the total weight / volume of the containers must not exceed 1 kg or 1 L;

3) Must be for at least one of the following uses: insect attractant or repellent; insecticide for treatment of domestic animals; bait stations (for insects or rodents); personal insect repellent; biting insect larvicide.
